As of January/February issue 118 of 2016, the Amiga Future magazine is 18 years old.

Quite a while for a printed magazine, surpassing old prophecies that Amiga Future would not survive more than a few months.

Now, after 18 years, we have set ourselves another goal, to noticeably increase the circulation numbers of Amiga Future.

To this end, we will be announcing, throughout the year, various special deals & offers.

One of these deal announcements can be found in the Amiga Future Issue 118 on page 29.

However, until everything is finalised, we have provided some useful links with information about the Amiga Future for you.

Perhaps this has already convinced some users to take out a subscription for the Amiga Future. 😊

Have fun with it,

Andreas Magerl
