The Amiga 32 is an Amiga event which takes place on the 32nd birthday on Saturday 28th October 2017 in the Rheinisches Landestheater in Neuss.

Many exhibitors have already registered for this event (The Amiga Future will of course also be there). As in 2015, developers will present their current software and hardware projects, well-known personalities and groups will present lectures and presentations, and a colorful supporting program will be on offer, which will offer something to everyone, whether long-time Amiga users, technology-oriented or retro -Fan; Whether gamers, programmers, graphic artists or musicians.

The event will again also cover all Amiga derivatives - whether MorphOS, AROS, OS4, Classic or Emulation - for us all belong to the Amiga family, show the colorful variety that the Amiga has produced and are very welcome.

Here we want to inform you about what's new:

New Guests:

David Pleasance, Managing Director Commodore UK  
Horst Brandl, Chiefeditor rom the german Print-Magazine Amiga Plus
