The AROS Archives is a collection of software for the AROS Research Operating System and can be found via the URL <http://archives.aros-exec.org> .

It runs in a similar way to Aminet, as the programmers themselves usually upload their own software in order to make it available to AROS users.

With nearly 1,000 uploads there is now an interesting collection of software for AROS.

The Aros Archives was founded 2005 from Björn Hagström.

Since our last report the following uploads have been added:

[metadiary.i386-aros.zip](#) - off/mis - 2011 - 220kb - 31 Oct 17 - 7 - [metaDiary - Color-coded activity log](#).
